

## 2.C - Metal Production (OVERVIEW)

Metal production comprises the following categories and sub-categories:

<b>2.C Metal Production</b>
<a href="#">2.C.1 Iron and Steel Production</a>
<a href="#">2.C.2 Ferroalloys Production</a>
<a href="#">2.C.3 Aluminum Production</a>
<a href="#">2.C.4 Magnesium Production</a>
<a href="#">2.C.5 Lead Production</a>
<a href="#">2.C.6 Zinc Production</a>
<a href="#">2.C.7.a Copper Production</a>
<a href="#">2.C.7.b Nickel Production</a>
<a href="#">2.C.7.c Other Metal Production</a>
<a href="#">2.C.7.d Storage, Handling and Transport of Metal Products</a>

In the CSE data base, category **NFR 2.C.1 - Iron and steel production** includes sinter production, pig-iron production, oxygen steel production, electric steel production, hot and cold rolling and iron and steel castings.

**NFR 2.C.2 - Production of ferroalloys, 2.C.5 - lead production, 2.C.6 - zinc production, 2.C.7.a - copper production** are listed directly as such in the CSE.

**NFR 2.C.3 - Aluminium production** is sub-divided into primary aluminium and remelted aluminium.

Sub-category **NFR 2.C.7.c - Other metal production** includes thermal galvanisation.
