Accuracy	1A1b\1A1c\2	Improvement from Tier 2 to Tier 3 using plant-specific data for some industrial processes including cement production as well as for large combustion plants (e.g. 1A1b 1A1c)	§ 19 41 45 46								Partly	Included for large combustion plants no plant-specific data for cement production
Accuracy	2A1	Cement production is a key source for Hg HCB and for NOx PM10 and PAH but Tier 1 is used. The ERT encourages Germany to use plant-specific data collected as part of the LCPD IPPC and E-PRTR to develop a tier 2 or 3 methodology in the near future and to document these in its IIR.	§ 79	§ 88							Yes	plant-specific data approach is not planned
