

1.A.2.d - Pulp, Paper And Print

All emissions from fossil fired power plants and boiler systems are reported in [NFR 1.A.2.g viii: Other](#) whereas all process related emissions as well as emissions from black liquor incineration are reported in [NFR 2.H.1 - Pulp and Paper](#) .

It is not possible to report combustion related emissions under the category 1.A.2.d for purposes of comparison as the emission estimates are based on a complete report of branches with EF for all occurring emissions in sum.
